California Great Fire

(2) DEI or DIE

When fire fighters attached the hose onto to fire hydrant, they were surprised that no water was able to come out. This should only happened in the third world and not in G7 countries. No one will be surprised if it is in the third world and normally people blame it for corruption. In countries of dictatorship, all effort are put onto controlling freedom of speech that all anti-government messages in social media are banned at once without any hesitation even it involved large manpower and resources. So what happens in US or in California? Specialist in Thompson Rivers University of Canada said if fire fighters can arrive within 10 minutes and started to work, this great fire can be put out, but when after 15 minutes the chance of putting out is zero.

It is because of DEI (Diversity, Equity and Inclusion) and thus will lead to DIE.

Diversity means in a white society, should give chance to black, brown or yellow, in a country of Christianity should respect Muslim and other religions. Equity means should give chance to woman, handicapped or other races to work in high management level or to enter world-class universities. Inclusion means should respect gay, lesbian, LGBT, transsexual, intersexual. Originally, it's no wrong, but when over-dosed, it makes the original white in US become a second class citizen. Those incapable people entered into management level and top class universities even if they are greatly under qualified. Thus made US, which is on top of G7 countries downgraded to the third world.

DEI started to rule US two decades ago in California under the governorship of Newsom, ideas were widely spread out in primary, secondary schools and tertiary colleges. The elect of an ethnic African president Barack Obama pushed it to another peak. After the election of Donald Trump in Nov, all secondary and primary schools cut the education of DEI in order not to DIE. That is why I said normally a US president had a term of 4 years, but Donald Trump 2.0 has a term of 4 years and 10 weeks. It really is.
