North East West South is NEWS

Trump said that Stargate, a new company jointly established by SoftBank, OpenAI and Oracle, "will invest at least \$500 billion to build AI infrastructure in the United States." Elon Musk questioned the financial resources of the plan, saying they actually had no money.

Trump re-designates Yemen's rebel group al-Shabaab as a foreign terrorist organization.

Traders are betting heavily that the European Central Bank will make a single 50 basis point rate cut before mid-year.

Bitcoin fell on Thursday after hype about more cryptocurrency-friendly policies from the Trump administration faded. \$Trump fell sharply by 14%.

With the support of the Paris Olympics, France defeated fierce competition from Spain and other countries in 2024 and retained the title of the world's largest tourist destination with 100 million visitors.

World Observation

DAY 1066

Russia / Ukraine Conflict

Donald Trump 2.0

(3) Revolution

Donald Trump addressed to the former presidents including Clinton, Bush, Obama and Biden of the revolution. How he did it, by stopping the decline and bringing a new golden age. Practically, he cancelled 78 executive orders of Biden and continued to issue new orders incessantly. This implies the former presidents sitting over there are sources of the current decline and that's why he needs to have a revolution.

When the incumbent UK Prime Minister Sir Keir Starmer took office, he also said a new era comes to replace the old, as in the past when the Labor Party took over Conservative or vice versa, this is the standard announcement. But the changes Donald Trump brought about is really great enough to turn on a new page.

In 2009 when Barrack Obama took office, his slogan is "Change", but practically, his major task is to save US from the Financial Tsunami. The only and most important job is that, while Trump's revolution covers wide area, including large and small events of US, both external and domestic, not just an adjective.

During the inauguration speech, we can see a lot of people stood up to applause every now and then, but still quite a number of people seating over there without any action. Or sometimes only one or two stood up and clap hands, while the majority are seating. This shows that America is really a land of freedom. In country of dictatorship, people in the Congress must totally stood up and clap hands, no one dare to have no action or slow action. Joe Biden and all former presidents stayed without any action, but.....when Trump said the war in Gaza is ended, Biden at once stood up and Harris followed to clap hands. Regretfully, under such a revolution, there is an "unfinished symphony". Once was the major part of his election campaign that he can end the Ukraine war within 24 hours and now he only gave warning to Putin that further sanction will come and no more.

Stargate & Record High

In 2017, just several days after Trump took office, Dow Jones broke the 20,000 points and erected record high. Now is the Trump 2.0, just several days after Inauguration, NASDAQ Composite broke 20,000 points and have another record high again. Ever onward! Never backward!

However, this time the high come with the news of Stargate. Three billionaires from OpenAI, Softbank (SFTBY) and Oracle (ORCL) turned up for this \$500 Billion project. Related stocks benefited includes NVDA and MSFT. Mind that they are private companies without any funding from Federal Government, that is why Elon Musk is in doubt with their funding.

Anyway they are all large firms, but once I said that the fall of AMD not yet finished even a lot of people said it could be buy right now. But I already said should in a ratio of 1 to 3 or 1 to 4 when comparing with NVDA. Because AMD ranks 70th in the world and NVDA ranks 2nd and are still developing. I also ask investors should try the Top 10 or Top 15 or Top 20 of the world when chasing high, for the market is of high risk now, but for those top companies they have practical power and can stand fast against any storm.
