North East West South is NEWS

Australia has banned the use of DeepSeek products, apps and web services on all government equipment, citing privacy and malware risks posed by China's groundbreaking artificial intelligence projects.

Palestinian Islamist group Hamas on Monday rejected US President Donald Trump's surprise plan to "take over" the Gaza Strip, calling it "racist" and aimed at eliminating Palestinian political goals.

According to an analysis report released by the United States, Arctic sea ice reached the second lowest level on record last month, and temperatures in the area around Greenland were much higher than average. Temperatures in the Arctic and Antarctic have risen by about 3 degrees Celsius compared to late 19th century levels, much faster than the global average.

The United States stopped accepting parcels from China and Hong Kong. It is reported that the tariffs imposed on China will cover Hong Kong goods for the first time.

According to Bloomberg News, citing U.S. officials, the government has received responses from more than 20,000 federal government civil servants who have agreed to participate in the delayed resignation plan, accounting for about 1% of federal government employees. After the relevant employees voluntarily resign immediately, they will still receive salaries until the end of September this year.

World Observation

DAY 1079

Russia / Ukraine Conflict

Donald Trump 2.0

(12) Ideology

The tariff policy of Trump is quite controversial, let's take a look at Canada, they considered it as a trade war. But in Mexico, they considered it as a problem of borderline on fentanyl and illegal immigrants.

Even in Canada, for those that against Trump would think that Trump should strengthen the borderline of US to prevent the entry of illegal immigrants and fentanyl, the responsibility should be on the side of US and not Canada. But for those for the Trump, it's a problem of ideology. So it goes back to the problem of basic concept of Trump which is DEI would lead you to DIE.

What is DEI, Diversity, Equity and Inclusive, that is fentanyl is not consider as a prohibited drug in Canada. They even have drug house to let people take narcotic drugs. Therefore zombie can be seen in streets of Canada quite often. When you find people smuggling drugs of under 15 grams, police would not take it into file for it is just a small matter. But in Singapore and Malaysia, smuggling drugs of over 20 grams would lead to death sentence. No matter whosoever smuggles 200 or 2000 grams, capital punishment is the ultimate result.

Even fentanyl is manufactured in China, but Canada has a lot of laboratories are having similar raw materials and some of them are not listed for the amount is too small. But such a small amount can kill 500K people in US. They tried hard to stop the entrance of illegal drugs, but Canada would not consider it as illegal because the amount is too small. So who is too strict? Singapore or Canada, who is too loose? It does not depends on how many grams or the weigh, but depends on how many people killed as Trump said is 500K for such a small amount. It's a concept of Ideology and DEI rather than trade war or tariff war.

God of stocks

Warren Buffet is known as God of Stocks in Hong Kong. In western countries he is known as the greatest investor, which means his talent is not limited to stock, but every part of financial market including bond, currency, crypto, precious metal andothers etc. Of course everyone knows that he is specialized in stocks.

What is he famous for? High profit of 100%, 1,000%, 5,000% etc, for he can hold a stock for 10, 20 or 30 years. That means he can foresee the development of that industry first and then find a better company to hold it against the ups and downs of market. That is he can hold stars of tomorrow before people detect them. He seldom do whatsoever intraday short term trading for the profit is too small.

So when NVDA was listed on the 5th ranking of Magnificent Seven, the writer of this bulletin already strongly advised to buy NVDA, and later when NVDA burst up, the writer said TSM will be the next NVDA, now PLTR can be said as the next king of stocks, just like APPL of today. The term for king of stocks is given to no 1 of the top 10 market capitalization company. AVGO will be listed among the Magnificent Seven soon. SpaceX is not yet listed but investor can try the ARKW or SOFI. APPL is the first company that reaches total market value of \$3 Trillion, who will first reach \$4 Trillion, very likely TSLA. If you believe AI not only can help the computers, but also can improve the health and life of human beings, try TEM.
