The third anniversary of the Russo-Ukrainian war. In a rare move, the United States and Russia voted simultaneously against a United Nations General Assembly resolution condemning Russia's aggression in Ukraine. Foreign media described this vote as reflecting a "shocking turn" in US foreign policy since the Trump administration came to power.

Russian President Vladimir Putin said on the third anniversary of the Russo-Ukrainian war that European countries and other countries could participate in negotiations to resolve the war.

French President Emmanuel Macron mentioned during a visit to U.S. President Donald Trump at the White House that peace does not mean Ukraine's surrender, and said that the dialogue with Trump had made "substantial progress."

DAY 1099

Russia / Ukraine Conflict

Donald Trump 2.0 (25) Peace Talk with Macron

French president Macron was famous for peace talk in Ukraine. During early stage of the war, Macron flew to Moscow to have peace talk with Putin. At that time was the peak of Covid-19, and Omicron virus was very strong. They sat on a 20 meter long table to talk. The length is even longer than penalty kick of 12-yards in soccer field.

Recently, Putin insisted that no member of NATO force should be deployed to Ukraine lest they triggered Article 5 of NATO, that ultimately might lead to World War III. However, this time during the peace talk in Washington DC of King Donald and Macron, France can send troops to Ukraine under the flag of EU and logo of EU. Of course it is supported by US and agreed by Russia. The UK can deploy military force to Ukraine but to second frontline only, anyway not the front-most line.

However, King Donald is so unpredictable. During the 3rd anniversary of the Ukraine war, the United Nations passed a resolution to condemn Russia, but US and Russia casted objection votes, so what King Donald really wanted to do? No one knows. They just said that the mineral agreement of US and Ukraine will be signed shortly. The fact is that over 70% of the minerals are in east Ukraine, under the control of Russia now. Investors had to keep a close eye on the agreement.

Anyway, after market closing on Feb 26th, the results announcement will be more eye-catching.
