Ichimoku chart of XAU nearly all in green for the past two years? Any relation with LMT? Ascending Triangle formed in Nov.

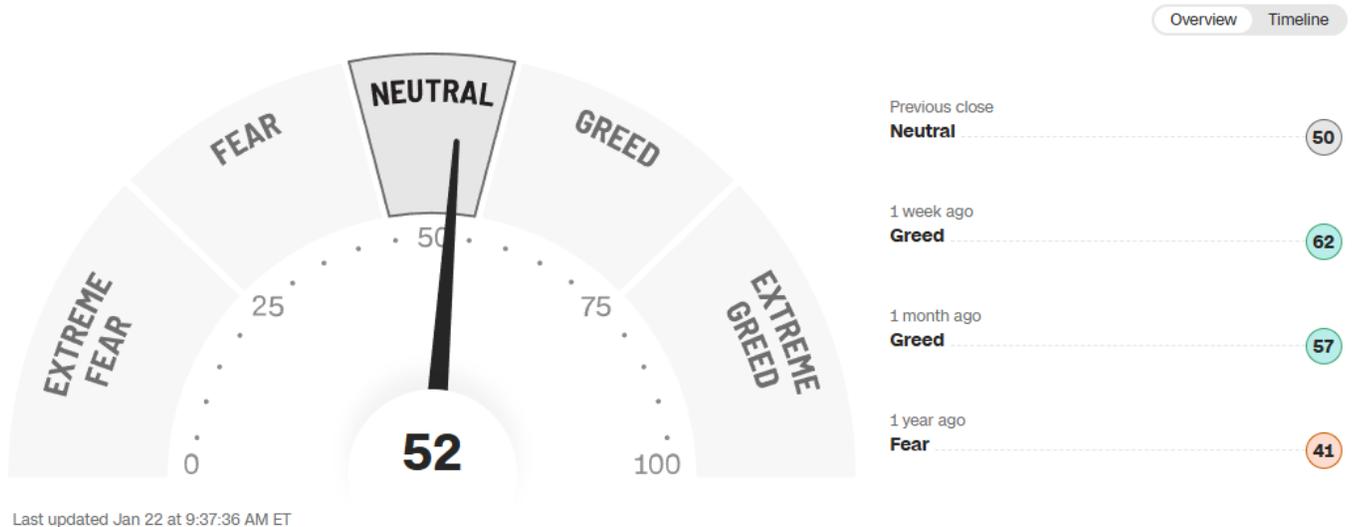

In April, G20 Finance Minister meeting in Washington DC, Chinese vice-prime minister with 20 people visited Treasury Building at 7:00am LMT stopped falling and XAU stopped rising, both went horizontally. In August, B22 bomber flew low ahead the ritual platform of Putin in Alaska and still could not stop war in Ukraine, both LMT and XAU rose. Reverse Head & shoulder formed in Hunter Full Moon of November 2025, both XAU and LMT rocketed up.

North East West South is NEWS

US President Donald Trump held a signing ceremony in Davos, Switzerland, formally establishing the "Peace Council" he championed. Officials from Bahrain, Morocco, Armenia, Azerbaijan, Bulgaria, Indonesia, Jordan, Kazakhstan, Kosovo, Pakistan, Paraguay, Qatar, Saudi Arabia, Turkey, the United Arab Emirates, Uzbekistan, and Mongolia also joined Trump in signing the document. Key US allies such as France and the UK expressed skepticism. Trump stated that Putin had agreed to join, while Putin said it was still under consideration. Israeli Prime Minister Benjamin Netanyahu has indicated he will join, but he did not attend the ceremony due to an arrest warrant issued by the International Criminal Court for the Gaza war.

Farah Pahlavi, the widow of former Iranian Shah Mohammad Reza Pahlavi and now in exile, stated that after the outbreak of anti-government protests in Iran, there is "no turning back," and she firmly believes the Iranian people will ultimately win.

Polish defense officials stated that, based on potential security risks, authorities are considering banning Chinese-made vehicles from Polish military facilities.

Japan restarted the world's largest nuclear power plant for the first time since the Fukushima nuclear disaster forced the shutdown of all reactors nationwide in 2011. Japan is highly dependent on energy imports and therefore adopted nuclear energy early on. However, the strongest earthquake in Japanese history in 2011 triggered a meltdown at the Fukushima nuclear power plant, resulting in one of the worst nuclear disasters in history and forcing the shutdown of all 54 reactors nationwide.

The UK House of Lords voted to ban the use of social media by those under 16, putting Prime Minister Starmer under pressure to follow Australia's similar ban.

Shield of Space Base Delta 1

Site information	
Type	Military base
Operator	United States Space Force
Controlled by	Space Base Delta 1
Condition	Operational

Pituffik Space Base (/biːduːˈfiːk/, *bee-doo-FEEK*;^[4] Greenlandic: [pituːf.ik]; **IATA**: **THU**, **ICAO**: **BGTL**), formerly **Thule Air Base** (/ˈtuːliː/, *TOO-lee*), is a [United States Space Force](#) base located on the northwest coast of [Greenland](#) in the [Kingdom of Denmark](#) under a defense agreement between Denmark and the [United States](#). As of 2025, about 150 United States service members are permanently stationed there, after the United States significantly reduced its presence from 6,000 personnel during the [Cold War](#)

The advent of FAFO era

(10) TACO wins completely

In Iran, families of the victims in demonstration complained Trump should not say help is on the way, for one of the witnesses said a demonstrator used his last breath to told his family that Trump said *help is on the way*. I have already made clear that he really ordered F35 to take off and afterwards released such a message, but called back later after thorough evaluation. In other parts of the world, they would not use my wordings of his policies need to be up-date, up-hour, up-minute and up-second; but TACO, the meaning is roughly the same.

Iran used war weapons against demonstrators and not tools to control protests. They shoot at their heads and eyes that a lot of wounded need to cut off their eyes in order to save life. No one complained or took any action to stop that, only complained TACO. It's no wrong to say TACO, really it is. But how about Khomeinī? Who can say a word for justice? Who can say a word for righteousness? A smart investor should not be involved, should put aside everything and grasp chance to aim at LMT, XAU, BA, UUUU, RKL B..... please refer to The Express of the past few days.

Donald Trump used his art of deal and completely got all what he wanted in Greenland. It is no use to occupy by force of a country that only has 56,831 population. Now he can forever use the Putifikk Space Base and can extend to any scale as he likes. It is forever leased to US, but no need to pay any rent. Like an unsinkable aircraft carrier in Arctic Circle, military base is like an embassy that is land aboard. Local residents welcome very much, for the force need to have consumption and buy things for daily livelihood. Above all, every mineral underneath the land, US has the priority to have exploration first. Agreement has been signed, if China or any other country wished to have exploration, must get the approval from US first.

So, forget the target with effective from Feb 1 of 10% or with effective from Jun for 25% tariff. No more tariff war. Please be noted that it is for rare earth, underneath it

of course has large amount of rare earth and other minerals that Trump wants. Mind that Greenland is not green at all, it is covered with ice 365 days a year. And Iceland is in reverse when in comparison with Greenland, Iceland is very green, and Greenland is full of ice.

My dream is to transport a Steinway piano to the floating ice of Iceland and broadcast live in YouTube. However, the transportation fee surely is much more expensive than buying a Steinway piano, for it should be a round trip, to and return. Therefore, I also need to earn more money in the market and make my dream come true. If you can fix a dream in investment and have your own target, it will be marvelous!

Trump wins! Trump won! But how about people in Iran? White House said everything is still on the table, no one would say their project is cancelled, just postpone! But in the future, if Trump again gives similar promises, would people believe in him? Never mind, the greatest advantage of democracy is that if you do not like him, 4 years later he must step down, now only 3 years left. One more thing to remind investors, Boeing (BA) is a stock not only for Mars Landing, but also military producer, and also a stock of tourism and communications. Year 2026 is a rise of individual stocks, don't forget it. Residence in Greenland is preparing to bloom their travel industry now.
