# WTI overlaying S&P

Bar chart is WTI, line chart is S&P

Lowest point of S&P is on 7<sup>th</sup> Apr (this chart show on 8<sup>th</sup> of Asia), lowest point of WTI on 8<sup>th</sup> of US (9<sup>th</sup> in Asia)

The jumping gap of Apr and May 2025 not yet refilled, therefore the chance of refilling the gap of Apr 2026 is half and half only.

Day 1511  
Russia/Ukraine Conflict

# Blockade & Anti-blockade

Most of the media said the ceasefire for peace talk of the US/Iran war is quite fragile and it really is. The reason is very simple. Those that have kept a market diary should know that before the start of the war on Feb 28, the US has narrowed the points of 4 to 1, that is if Iran can give up development of nuclear power, war can be avoided. Iran asked for a stop of 3 hours for the talk and asked for permission of their highest leader. The reply was No! No! No! So, Trump said Go! Go! Go!

Thus started the war, and now the US has 15 points and Iran has 10 points, of course quite hard to talk about. Iran refused to give up development of nuclear power, for they thought they would not have a sense of safety. But the opening of Hormuz Strait was held. Thus, Trump launched out an unexpected action of blockading the Strait. No one is allowed to pass the Strait, even those that had already passed would be chased by the US navy for not allowing them to give a passing fee to Iran. The waterway is a public water, collecting passing fees is the action of pirates. But there is no international police to keep off the pirates. So, what can be done? Pirates against pirates!

The United Nations cannot do anything and even cannot say anything. So, the US Navy appeared to be international police but not authorized by anyone except by Trump. The nuclear talk of Iran started in 2006 of P5+1 by the UN, and this is the outcome. We cannot wait until World War III

comes and still keep on talking. Why does Trump have to chase the ships that already passed the Strait who had given money to Iran? Superficially you can say it is an action of keeping the Strait free for passing, no one including the EU or NATO is willing to do so. The US is not in lack of oil; it is Asia and Europe that need most. So why is Trump so eager to be an international police officer? The Strait does not belong to Trump.

According to the agreement before the talk, Iran should keep the Strait open and collect passing fees, US is not in objection only if both can collect. Or even the third party which is the Gulf countries. We can understand that the international law established after World War II was destroyed, now is a kingdom of pirates against pirates. Therefore, some people said World War III has already started, for the UN cannot do anything to stop a nuclear war as the League of Nations cannot stop World War II. Will history re-appear itself? Real international police should not collect any passing fee, but it is impossible to Trump.

Being a small potato of the market, we are unable to stop any pirate action or encourage any police action. We can only take chances to improve our luck to invest. We should be clear about who needs peace more. In case of military action, there is no doubt Iran is in complete failure, but in case of bearing the hardship of the aftermath in the economy, the US is trying to block the income of Iran till it surrenders. Who can be successful in the economy? Just wide open your eyes and see. Market is still running in a narrow range without any panic selling. They are waiting for a second round of talk, but we do not know when it will come. Entering the market of keeping it unchanged or ready to get any changes, they all need a little bit of luck. Please try to improve your luck a little before doing or not doing anything now!
